

SRI VIGNESWARAN K

AI Engineer · LLM & GenAI · MLOps

Coimbatore, India | +91-9597748874 | vickykrishnaraj.444@gmail.com | [linkedin.com/in/sri-vigneswaran-k-845411303](https://www.linkedin.com/in/sri-vigneswaran-k-845411303)

PROFESSIONAL SUMMARY

Results-driven AI Engineer with hands-on experience building production-grade LLM pipelines, AI Agents, and Retrieval-Augmented Generation (RAG) systems. Proficient in Python, LangChain, OpenAI APIs, and vector databases, with real-world experience deploying GenAI solutions that cut manual effort by 20%+. Strong foundation in NLP, data engineering, and SAP GenAI platforms. Passionate about designing scalable, explainable AI systems that solve concrete business problems.

WORK EXPERIENCE

AI Engineer Intern (GenAI & LLM). [Sierra Digital Inc.](#)

Coimbatore, India | Jun 2024 – Dec 2024

- Architected and deployed AI Agent workflows using LangChain and OpenAI GPT models to automate extraction of structured insights from unstructured enterprise data — reducing analyst query time by ~30%.
- Built a production RAG pipeline using SAP GenAI and vector-based retrieval to answer natural-language queries against 10K+ rows of client datasets with high factual accuracy.
- Designed and fine-tuned prompt engineering strategies (chain-of-thought, few-shot, role prompting) to improve LLM output quality and reduce hallucinations across multiple use cases.
- Implemented an OCR + LLM document intelligence pipeline to process 50+ unstructured documents (PDFs, scanned files), improving data availability and cutting manual reporting time by 20%.
- Developed structured metadata and data context layers to improve LLM extraction accuracy and enable consistent, schema-aware outputs across diverse datasets.
- Built 3+ KPI dashboards in SAP Analytics Cloud (SAC) to visualize AI pipeline output, performance trends, and data quality metrics for business stakeholders.
- Conducted data quality validation and preprocessing (cleaning 10K+ records) to ensure reliable inputs for downstream AI models and reporting systems.

AI / ML PROJECTS

AI-Powered Abusive Comment Detector | *Python, Transformers (BERT), NLP, Scikit-learn*

- Fine-tuned a BERT-based classifier on a custom labelled dataset to detect abusive/offensive language with 91%+ F1 score.
- Built preprocessing pipeline (tokenization, stop word removal, augmentation) and deployed model via a Flask inference API.
- Implemented explainability using LIME to surface token-level attributions, making model decisions interpretable for moderation teams.

Automatic Detection of Abusive Comments | *Python, Scikit-learn, NLP*

- Built an AI-powered text classification model to automatically detect abusive and offensive comments on social platforms.
- Applied NLP techniques for text preprocessing, feature extraction, and automated content moderation.

Customer Behaviour Dashboard | *Python, Power BI, MySQL, Pandas*

- Built an interactive **Power BI dashboard** to analyse customer purchasing behaviour, sales trends, and customer demographics using real-world retail data.
- Performed data cleaning, transformation, and feature engineering with **Python (Pandas)** and **MySQL**, enabling accurate KPI reporting and business insights.

TECHNICAL SKILLS

AI / LLM: LangChain, OpenAI API (GPT-4, Embeddings, Functions), Prompt Engineering, RAG, AI Agents, Fine-tuning

ML / NLP: Scikit-learn, BERT, Text Classification, OCR

Vector & Data: Pandas, NumPy, SQL, Data Cleaning & Validation, Metadata Management

Platforms & Tools: SAP GenAI, SAP Analytics Cloud, SAP S/4HANA, SAP Datasphere, Power BI,

APIs & Backend: Flask, REST APIs, JSON, Python scripting

DevOps / Infra: Git, GitHub, VS Code, Jupyter Notebooks

Languages: Python, SQL, basic JavaScript

EDUCATION

M.Tech – Computer Science

May 2026

Sri Ramakrishna Engineering College | CGPA: 7.08 / 10.0

Higher Secondary – Computer Science

May 2021

Sri Ramakrishna Matriculation Higher Secondary School | Grade: 81.2%

CERTIFICATIONS

- ▶ NLP Specialization – Coursera (deeplearning.ai)
- ▶ Data Analytics Virtual Experience – Deloitte, Forage
- ▶ Getting Started with Power BI – Microsoft
- ▶ Introduction to End-to-End Data Analysis – Microsoft
- ▶ Discover Data Analysis – Microsoft
